

Workshop: Using AI to Run Innovation and Mobility Projects

ABOUT OUR WORKSHOP

As Saudi Arabia's transport and infrastructure transformation accelerates, project leaders are redefining how innovation is managed and delivered. Artificial Intelligence is evolving from a tool to a strategic partner - shaping decisions, optimising resources, and enhancing performance.

In this interactive workshop by the Project Management Institute – Saudi Arabia Chapter (PMI-KSA), discover how AI can power smarter project execution, predict risks, and drive efficiency. Through real-world cases and group challenges, participants will explore practical ways to apply AI for sustainable innovation.

WORKSHOP AGENDA

Segment	Format
Opening Prompt	Problem Outline – Defining innovation challenges in AI-led project environments
Expert Framing	Short presentation: The evolving role of AI in project design, planning, and mobility execution
Group Activity	Table-based simulation: Applying AI tools and frameworks to real transport project scenarios
Mid Break	—
Group Feedback	Sharing insights and learnings from group case applications
PMI Showcase	Global best practices in AI-driven project management and innovation delivery

1 DECEMBER 2025

Monday | 15:30 – 17:00

The Visionary Workshop Zone

About PMI – KSA Chapter:

Project Management Institute (PMI) KSA Chapter, is the leading authority in project management, dedicated to guiding the way to project success. Since 1969, PMI has shone a light on the power of project management and the people behind the projects.

Purpose of PMI – KSA Chapter:

Contribute to developing the project management profession through-out the Kingdom of Saudi Arabia, spreading its culture, and promoting distinguished practice by empowering project management practitioners and providing them with the knowledge, resources and tools required to excel in the profession.
